Dear Colleague

Welcome to Issue 28 of HPH's *Business Matters*, the completely free update covering current business issues, news and money-saving advice.

In this issue of *Business Matters* we bring to your attention the following topics: -

Loan Arranger

The loan offer from your company's bank seems expensive. However, you can personally raise some cheaper finance for your business. How can you make sure you get a tax deduction for any interest paid on this loan? Our Fact Sheet reviews the position.

Get the date right!

You can purchase plant or machinery and claim 50% Capital allowances in the first year of ownership. However, you have to get the date of the expenditure right. What do you need to remember? Our Fact Sheet looks at what you should do.

Classic Solution

Classic cars come in all shapes and sizes. You might be considering owning one – nothing fancy, just something affordable. But did you know that it could now be tax efficient if your company owns it instead. How? Our Fact Sheet considers what is involved.

Time to increase dividends?

For 2007/08, personal allowances are up, the lower rate income tax limit has been extended and NI thresholds raised. Nothing new in that, however, this all has an impact on the dividends from your company. Read our Fact Sheet to find out more.
